

**1. IDENTIFICATION OF THE SUBSTANCE/PREPARATION AND COMPANY**

Product Name: **Roots PHC BioPak Plus; Roots BioPak Plus**

Product Identity: Mixed dry soluble fertilizer.

Recommended use

This product is a mixed soluble granular fertilizer for landscape use.

Supplier/Manufacturer

Lebanon Seaboard Corporation
1600 East Cumberland Street
Lebanon PA 17042
800-233-0628
(717-273-1685)

Emergency telephone numbers:

Chemtrec (Spill) 1-800-424-9300

Prosar (Health) 888-208-1368

2. HAZARDS IDENTIFICATION

OSHA Signal Word: Warning.

Hazard Statements:

H302 Category 4: Harmful if swallowed in quantity.

H319 Category 2A: Causes serious eye irritation on contact.

H335: Causes respiratory irritation if inhaled.

H315 Category 2: Causes skin irritation with prolonged contact.

Precautionary Statements:

P233: Keep container tightly closed.

P262: Do not get in eyes, on skin, or on clothing.

P264: Wash hands thoroughly after handling

P270: Do not eat, drink or smoke when using this product.

P271: Use only outdoors or in a well-ventilated area.

P280: Wear protective gloves/protective clothing/eye protection/face protection.

P301, P310, P312: IF SWALLOWED: Rinse mouth and call a POISON CENTER or doctor/physician.

P332: If on skin, wash with plenty of soap and water. If irritation occurs and persists, seek medical advice.

P337: In case of eye contact, rinse cautiously with water for several minutes. If eye irritation occurs and persists, seek medical advice.

P340: If inhaled and in distress, remove victim to fresh air and keep at rest in a position comfortable for breathing.

P351: If in eyes: Rinse cautiously with water for several minutes. Seek medical attention if irritation persists.

P361: Remove immediately all contaminated clothing, and wash separately before reuse.

P403, 405: Store locked up, in a well-ventilated place.

P501: Dispose in accordance with local, State, and Federal regulations.

Hazards not otherwise classified (HNOC): None

Unknown acute toxicity: <1% of the mixture consists of ingredients of unknown toxicity.

3. COMPOSITION/INFORMATION ON INGREDIENTS

Ingredient	CAS#	%
Potassium citrate	6100-05-6	46.852
Ferrous sulfate	7782-63-0	22.611
Maltodextrin	9050-36-6	7.028
Potassium humate	68514-28-3	5.398
Polyethylene glycol	25322-68-3	4.787
Magnesium hydroxide	1309-42-8	3.769
Seaweed extract	84775-78-0	3.361
Yucca extract	90147-57-2	1.935
Manganese EDTA	15735-84-5	1.630
Zinc EDTA	14025-21-9	1.426
Precipitated Silica	7631-86-9	1.019
Sodium borate	1303-96-4	0.183
Bacteria	68038-70-0	0.001

4. FIRST AID MEASURES

- Eye Contact** Rinse eyes cautiously with water for several minutes. Remove any contact lenses if easy to do, and continue rinsing. If discomfort or irritation persists contact a physician.
- Skin Contact** Wash with soap and water. If injury occurs, or if discomfort or irritation persists or rash occurs, contact a physician.
- Inhalation** If inhaled and discomfort occurs, move to fresh air, and keep person at rest in a position comfortable for breathing. If difficulty in breathing occurs and/or persists, administer oxygen and get medical attention. If medical advice is needed, have product container or label on hand.
- Ingestion** IF SWALLOWED: Rinse mouth and call a POISON CENTER or doctor/physician.

Self-protection of the first aider: Use any appropriate personal protective equipment as required for nuisance dusts.

Most important symptoms and effects, both acute and delayed: Nuisance dust irritation may occur with nasal discomfort under highly dusty conditions.

Indication of any immediate medical attention and special treatment needed: Treat Symptoms. Consult physician if discomfort or irritation persists. Get medical advice or attention if you feel unwell.

5. FIRE FIGHTING MEASURES

Suitable extinguishing media

Use extinguishing media suitable to local circumstances and the surrounding environment. Options in this case include water, CO₂, ABC Dry Chemical extinguisher, or foam. Avoid stirring up dust extinguisher stream.

Specific hazards arising from the chemical

Thermal decomposition can lead to release of irritating and toxic gases and vapors. In the event of fire, do not breathe fumes.

Explosion data

- Sensitivity to mechanical impact: None
- Sensitivity to static discharge: None

Note: Excessive amounts of any burnable dusts can produce explosive mixtures if allowed to disperse in the air in confined areas where ignition sources occur. Prevent excessive dust dispersal in areas of use, storage, or production.

Protective equipment and precautions for firefighters

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and standard protective (bunker) gear.

6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment, and emergency procedures

Personal Precautions	Use dust mask and gloves as needed or other reasonable personal protective equipment as required to prevent contact with eyes or skin. Remove ignition sources prior to clean-up. Avoid breathing dust.
Environmental precautions	Prevent entry into waterways, sewers, basements or confined areas. Do not flush into surface water or sanitary sewer system. See Section 12 for additional ecological information.
Methods for containment	Prevent further leakage or spillage, if safe to do so.
Methods for clean-up	Use dust mask and/or reasonable personal protective equipment as required to avoid breathing dusts. Moisten or cover powder spill with plastic sheet or tarp to minimize spreading. Take up mechanically, placing in appropriate containers for disposal. Avoid creating dust. Soak up excess with inert absorbent material. Clean contaminated surface thoroughly.

7. HANDLING AND STORAGE

Safe Handling	Read and understand all safety precautions before handling. Ensure adequate ventilation, especially in confined areas. Use personal protective equipment as required to avoid breathing product dusts or mists, and to prevent eye contact. Wash hands thoroughly after handling.
Storage Conditions	Keep containers tightly closed in a cool, well-ventilated place. Keep out of the reach of children.
Incompatible materials	Avoid strong acids or alkali, or other reactive substances.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Exposure Guidelines

Ingredient	CAS#	OSHA PEL	ACGIH TLV
Potassium lignosulfonate	68514-28-3	-	-
Magnesium hydroxide	1309-42-8	-	-
Zinc EDTA	14025-21-9	-	-
Ferrous sulfate monohydrate	13463-43-9	-	1 mg/ m ³ , as Fe
Manganese disodium EDTA	15735-84-5	5 mg/m ³ (Ceil)	0.2 mg/m ₃ , as Mn
Beneficial bacteria	68038-70-0	-	-
Nuisance dust; Total		5 mg/m ₃	3 mg/m ₃
Nuisance dust; Respirable		15 mg/m ₃	10 mg/m ₃

Engineering controls: Use with adequate ventilation and follow safe work practices to prevent dust buildup in air. Avoid breathing dust or mist.

Individual protection measures

Eye protection	Safety glasses, or goggles if eye contact is likely
Skin and Body Protection	Gloves and standard work coveralls recommended.

Respiratory Protection	Dust mask recommended for dusty or misty conditions. If exposure limits are exceeded or irritation is experienced, NIOSH/MSHA approved respiratory protection should be worn. Respiratory protection must be provided in accordance with current local regulations.
General Hygiene	When using product, do not eat, drink or smoke. Wash hands thoroughly after handling. Wash contaminated clothing before reuse.
Other Information:	The bacteria contained in this product are strains of typically harmless soil and water bacteria, and are not associated with disease or infection in normally healthy people under normal circumstances. However, reasonable precautions are in order. Use good hygiene practices. Handle with nonporous gloves. Wash hands after handling. Wash hands and face before handling food or drink. If spilled on clothing, wash separately from other clothing. Remove and wash contaminated clothing before reuse. Clean clothing should be worn daily to avoid possible long-term buildup of the product leading to chronic overexposure. Persons with severely compromised immune systems should consult with their physician before handling microbial products.

9. PHYSICAL AND CHEMICAL PROPERTIES

Physical state	Solid
Appearance	Mostly black powder with light speckles
Color	Mixed, various
Odor	Slight herbal odor
Odor Threshold	No information available
pH	5.5 to 6.7 (1% aqueous solution)
Melting point/freezing point	Not applicable
Boiling point / boiling range	Not applicable
Flash point	No information available
Evaporation rate	Not applicable
Flammability (solid, gas)	No information available
Flammability Limit in Air	
Upper flammability limit:	No information available
Lower flammability limit:	No information available
Vapor pressure	Not applicable
Vapor density	Not applicable
Bulk Density	Approx 0.9 g/cc
Water solubility	Soluble.
Solubility in other solvents	No information available
Partition coefficient	No information available
Autoignition temperature	No information available
Decomposition temperature	No information available
Oxidizing properties	None

10. STABILITY AND REACTIVITY

Reactivity

No data available

Chemical stability

Stable.

Possibility of Hazardous Reactions

May release heat and fumes when mixed in solution with incompatible reactive materials.

Hazardous polymerization

Will not occur.

Conditions to avoid

High heat, sparks and open flames, as some ingredients may be burnable.

Incompatible materials

Strong acids or alkali, or other reactive substances.

Hazardous Decomposition Products

May emit toxic fumes under fire conditions, such as Nitrogen oxides (NOx), Ammonia, Oxides of sulfur, Hydrogen chloride and Carbon monoxide.

11. TOXICOLOGICAL INFORMATION

Routes of exposure: Ingestion, eyes (contact), skin (contact), dust inhalation

Symptoms	May irritate the digestive tract if ingested in quantity, causing nausea, vomiting and diarrhea.
Sensitization	No information available.
Germ cell mutagenicity	No information available
Carcinogenicity	Not listed as carcinogenic.
Reproductive toxicity	No information available
STOT - single exposure	No information available
STOT - repeated exposure	No information available
Chronic toxicity	Prolonged inhalation may lead to respiratory tract irritation. Repeated or prolonged inhalation of magnesium dust has been reported to cause increased incidence of digestive disorders.
Target Organ Effects	Lungs; respiratory irritation
Aspiration hazard	No information available

12. ECOLOGICAL INFORMATION

Fertilizers may be harmful to aquatic life with short term effects, causing algal bloom and increased BOD, depending on the amount released.

Persistence and degradability	Partially biodegradeable
Bioaccumulation	Not expected to bioaccumulate, based on composition
Other adverse effects	No information available

13. DISPOSAL CONSIDERATIONS

This material, as supplied is not a hazardous waste according to federal regulations (40 CFR 261).

Disposal of wastes:

- This product is a non-hazardous waste material suitable for approved solid waste landfills.
- No EPA Waste Numbers are applicable for this product's components.
- Dispose of in accordance with Local, State, and Federal regulations.

Contaminated packaging

No US Federal special packaging considerations at the date of this document. Follow local regulations.

14. TRANSPORT INFORMATION

Fertilizer, N.O.S.

DOT:	Not Regulated	ADR:	Not Regulated
Proper Shipping Name:	Non Regulated	ADN:	Not Regulated
Hazard Class:	Not Applicable	RID:	Not Regulated
IATA:	Not Regulated	IATA:	Not Regulated
Proper Shipping Name:	Non Regulated	TDG:	Not Regulated
Hazard Class:	Not Applicable	ICAO:	Not Regulated
IMDG/IMO	Not Regulated	MEX:	Not Regulated
Hazard Class	Not Applicable		
Marine Pollutant	No		

IMDG: Not a dangerous good.
ICAO/IATA: Not a dangerous good.

15. REGULATORY INFORMATION

SARA 313 Superfund Amendments: This product contains no chemicals which are subject to the reporting requirements of the Act and Title 40 of the Code of Federal regulations, Part 372.

SARA 311/312 Hazard Categories

Acute: Yes
 Chronic: Yes
 Fire: No
 Sudden release of pressure: No
 Reactive: No

CERCLA: Ferrous sulfate: RQ = 1000 Lb.

Clean Water Act: This product does not contain any substances regulated as pollutants pursuant to the Clean Water Act (40 CFR 122.21 and 40 CFR 122.42).

State Regulations

State Lists: Ferrous sulfate: CA, MA, NJ, PA, NY

California Proposition 65: This product may contain detectable quantities of a substance (sand mineral: silica) known to the State of California to cause cancer by prolonged, repeated inhalation over a long period of time (months to years).

International Inventories

TSCA (USA): Complies

General Product Information: This product is not federally regulated as a hazardous material.
Clean Air Act: No information is available.
Clean Water Act: No information is available.

State Regulations – General: This product is not regulated by any State as a hazardous material.
Component Analysis – State None of this product’s components are on the state lists from CA, FL, MA, MN, NJ, or PA.

16. OTHER INFORMATION

Disclaimer

The information provided in this material safety data sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as guidance for safe handling, use, processing, storage, transportation, disposal, and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.
